

Southfields Primary School Extension

Welcome from the site team

Welcome to the first edition of the Kier Newsletter for the Southfields School project. These regular publications are aimed at keeping you updated with progress on site.

We will highlight recent construction works, as well as what to expect in the upcoming months.

About the project

Kier has been appointed by Peterborough City Council to construct a new-build extension to the school, linking together the existing infant and junior schools. It will be constructed from pad foundations, a structural steel frame, curtain walling, strip footings, brick and blockwork.

This new extension will house six classrooms, WC facilities, a new ICT suite, meeting and administration rooms, and a new office for the Headteacher.

The extension will enable the school to increase their capacity to 600+ students, fulfilling a much-needed increase in demand.

Upcoming activities on site

You will have seen some temporary classrooms being delivered to site, and we are carrying out some minor paving works. These are all part of an Enabling Works package, so that the school can relocate some operations ahead of the main works.

The main contract will then begin on the 26 May 2015 after the half term break, and is programmed to complete in March 2016.

The architect's impression of how the finished project will look.

Who are we?

Kier Construction operates throughout the UK, and this project is delivered by the Eastern region, and managed out of our Waterbeach Office.

To find out more information about the Eastern region of Kier, please visit our website:

www.kier.co.uk/eastern

How to contact us

Our nominated site contact is Barry Mallott.

t: 07879 848805

Barry can be contacted during normal working hours.

Our contact details are also displayed at the school entrance, should you have any concerns.

Write to us

Alternatively, you can write to us at our Waterbeach office:

Kier Construction
Cambridge Research Park
Waterbeach
Cambridgeshire
CB25 9TN

t: 01223 205 900

Richard German
Contracts Manager

Office-based but attends site regularly.

Barry Mallott
Project Manager

Site based. Responsible for every day project management.

Rod Sinnott
Site Manager

Site based. Responsible for managing site activities and safety.

David Hodson
Project Quantity Surveyor

Site based. Responsible for managing cost.

Community initiatives with the school

Throughout the works, Kier is keen to engage with the school and make the construction project an educational experience.

This will include providing site visits for small groups, presenting in assemblies and holding a competition to decorate the site hoarding.

Kier is an associate member of the Considerate Constructors Scheme. As part of our commitment, we will do what we can to minimise disruption from the project. If you have any concerns, please do not hesitate to contact us.

Car Parking

As there is minimal parking on site, the construction team will park in the local council-owned car park.

Working hours

Our general working hours are 07.30 - 17.00 Monday to Friday. Occasionally, we may work Saturday mornings from 08.00 - 13.00, with pre-agreement from the school.

Deliveries and site traffic

Our deliveries are all planned to avoid the busy school starting and closing times of 08:30 to 09:15, and 14:45 to 15:30. We will hold all deliveries away from site during these times wherever possible.

We will have a full time Gateman at the site entrance to control and direct deliveries. All deliveries will be directed straight into site to avoid disturbance and traffic congestion on Southfield Road.

April 2015

Thank you for taking the time to read this newsletter.
